

Applications Open!

Virginia Earth System Science Scholars is a **FREE** program for students interested in shaping the future of our planet and beyond.

Must be: 11th or 12th grade
Virginia resident
2.7 GPA
U.S citizen (for summer academy)

Dec. - May
Complete a 7-module online dual enrollment course featuring engaging projects & writing assignments about the interconnected systems that shape Earth, human environmental impact, & NASA Earth observation technologies. Earn transferrable college credits.

Top-performers may be invited to an immersive, 6-day residential academy at NASA Langley Research Center. Scholars work in teams alongside NASA & industry professionals to tackle authentic Earth system science challenges.
