

WILLIAM & MARY

CENTER FOR GIFTED EDUCATION

Join us for Saturday and Summer Programming

We are dedicated to supporting the academic and personal growth of advanced learners through specialized enrichment and talent development opportunities.

Identify academic strengths through above-grade-level testing

Access engaging, in-depth courses that go beyond standard grade-level instruction, supporting students' ability to thrive as they are challenged to achieve more.

Learn through interactive lessons and activities that promote deeper understanding

Build social connections by engaging with peers and educators in a supportive, challenging environment.

Residential Program

Our **Youth Talent Search (W&M-YTS)** helps students uncover what makes them shine! Through above-level testing, we help students and families discover strengths, explore interests, and connect with exciting opportunities that fit their unique talents.

- YTS is a two-week residential summer program, held July 5–19 for rising 7th–9th graders on the beautiful William & Mary campus.
- Students live on campus, make new friends, and dive into hands-on learning — with the chance to choose from several exciting courses tailored to their interests. It's all about helping students tap into their academic superpowers and giving them access to advanced instruction, enrichment, and resources that support their growth and success.

The **W&M Leadership for Change Academy (W&M LCA)** is an immersive program empowering young leaders through leadership development, debate, and history. Rooted in William & Mary's tradition of civic engagement and academic excellence, the academy invites students to explore how leadership has shaped key moments in history — and how those lessons can inspire meaningful change today.

- A one-week residential program held on the William & Mary campus for rising 9th-11th graders, June 28th-July 5th.
- Designed to help students discover their leadership skills & talents and ensure they have access to advanced instruction and resources that support their success.

Day Programs

Saturday and Summer Enrichment Programs that provide hands-on, advanced learning experiences. These programs encourage students to explore new interests, deepen their skills, and build connections with peers who share their passions and talents.

- Challenge students.
- Engaging, hands-on activities.
- SEP offered in spring, summer, and fall — courses beyond the standard curriculum.
